

Implementing the EL Zone on SmallHD Monitors with PageOS 5.3

1. Go to Setting
2. Go to Color Pipe
3. Add New Color Pipe
4. In The New Color Pipe, INPUT TYPE should be LOG, not SDR, not HDR
5. Select the camera
6. Select the correct Color Space and the rest options
7. Go back to Color Pipe menu
8. Click the Color pipe under the SDI you plug in
9. Choose the new Color Pipe you just create
10. Go to Exposure Assist
11. Select the EL Zone
