AbelCine

theater

events

This state of the art 4K theater, event, and studio space features a 180" diagonal screen, 4K laser projector, multiple seating configurations up to 107 seating capacity, multiple 4K reinforcement monitors, full lighting grid with theatrical lighting fixtures, surround sound, independent PA system, video switching, livestream, playback and recording.

An independent control room houses a TriCaster TC1 broadcast switcher and our PTZ robotic camera system, making it ideal for screenings, trainings, performances, presentations and live stream broadcasts.

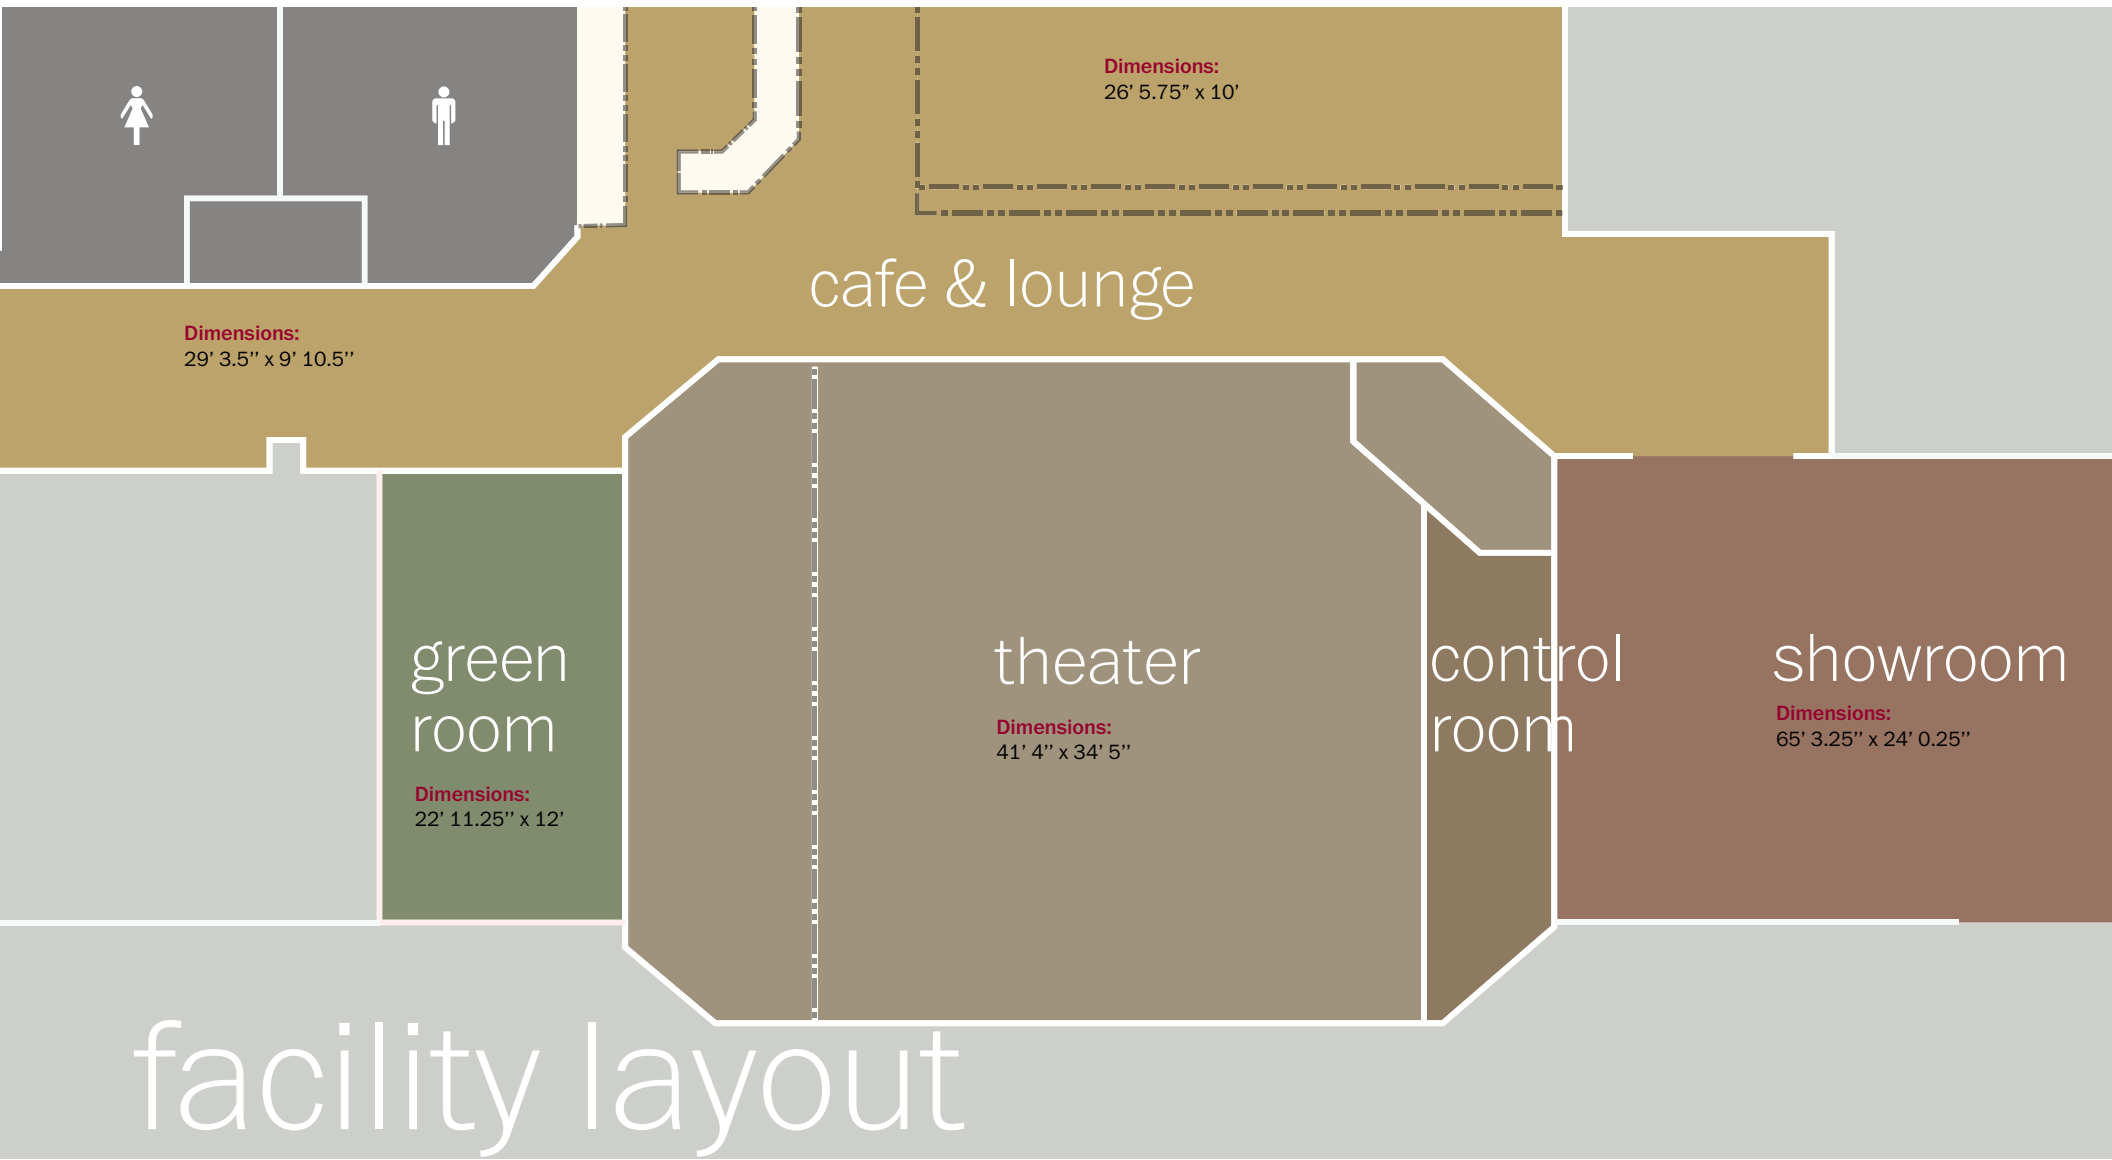

# lounge & cafe

Adjacent to the theater, the 1,300 sq ft lounge area is perfect for meet-ups and networking events. The space is equipped with a full kitchenette and bar counter, including a refrigerator, microwave and Keurig coffee machine. The elevated level allows for designated seating areas or presentations.

green room

The 276 sq ft meeting room is a private room ideal for meetings, small training sessions, VIP sessions, and small screenings. The green room has a private entrance separate from the Theater allowing for privacy for VIP sessions or as a staging area.

Rooms can be rented individually or in any configuration.
